

Shreya's parents can't send her to school.

Can You?

If you can't, the chances are Shreya will end up housebound, exploited as a child prostitute or a maid or be married off early and probably die during childbirth.

In India, considering that out of every 10 girls who enroll in Grade I, only 3 complete Grade X, education for a girl child born to a poor family is still a pipe dream.

The Nanhi Kali project intends to make this appalling fact, history. With your help we can make it sooner.

How you can help

Sponsor a Nanhi Kali. Be her guardian. Give her the assurance that no matter what trials her family faces she will never have to drop out of school.

Your sponsorship will provide her with study material, uniforms and learning support. It will also be used to work with her teachers to create a learning-friendly environment in the government school she goes to.

- To keep a girl in school from Grade I - Grade VII, the per annum cost is US\$ 65
- To ensure an older girl continues her schooling from Grade VIII - Grade X the per annum cost is US\$ 85

As a guardian...

You will receive a profile of your Nanhi Kali with a photograph. You will also receive regular updates so you can track her academic progress.
